This non-profit organization is dedicated to providing free market solutions to today's public policy problems. Donors believe that the principles of a free market, individual liberty and personal responsibility are the source of American success and must be promoted if the U.S. is to continue to prosper. Donors have therefore responded to appeals in support of President Bush and in favor of reversing Bill Clinton's many stifling and anti-business executive orders, and opposing extreme environmentalism, anti-war radicals and illegal immigration.
